SUMMARY

Motivated Computer Science and Engineering (AI & ML) student with strong skills in C, C++, Python, JavaScript, HTML, CSS, and Firebase. Passionate about full-stack web development and building innovative, real-world applications. Experienced in developing projects focused on accessibility, safety, and e-commerce. Eager to apply problem-solving skills, learn new technologies, and contribute as a Software Developer.

EXPERIENCE

Tata Crucible Campus Ambassador

- Promoted Tata Crucible competitions and events in my college.
- Encouraged students to participate and helped increase registrations.
- Coordinated with students and the Tata Crucible team.
- Improved my communication, leadership, and teamwork skills.

PROJECTS

Ayruy Shopping | Full Stack E-commerce

- Developed an Amazon-inspired online supermarket with a responsive user interface.
- Implemented Firebase Authentication for secure user login and registration.
- Designed an admin dashboard for managing products and orders.
- Integrated Firebase Realtime Database for product and user data management.
- Built customer features including product browsing, shopping cart, and order placement.

LUBE SALES TRACKER | INVENTORY & SALES MANAGEMENT

- Developed a web-based sales tracking system for managing lubricant sales and inventory.
- Implemented secure user authentication and real-time data storage using Firebase.
- Designed modules for customer management, sales recording, inventory updates, and reporting.
- Built an intuitive dashboard to help monitor daily sales and business performance.
- Improved the efficiency of sales record management by replacing manual processes with a digital solution.

SKILLS

- Web: HTML5, CSS3, Firebase, Responsive Web Design
- AI: Generative AI, AI Fundamentals, Prompt Engineering
- Tools: VS Code, GitHub
- Core Skills: Problem Solving, Data Structures (Basic)

EDUCATION

B.E. Computer Science and Engineering (AI & ML)

M Kumarasamy College of Engineering
2025-Present

LANGUAGES

Tamil ●●●●●●
English ●●●●○
Japanese ●●○○○

KEY ACHIEVEMENTS

Published Author

Published the books The Celestial Odyssey of NASA Through Time and Space and The AI Wake Up Call, demonstrating strong research, technical writing, and communication skills.

Winner

Digital Poster Making Competition-**Sep 2025**

COURSES

Claude Code 101

Claude Learning, obtained in 2026

Gen AI: Beyond the Chatbot

Google Cloud Learning, obtained in 2026
