

Marcus Webb

Software Engineer | marcus.webb@example.com | +1 (555) 771-4420

Summary

Software engineer with 4 years of experience building data-backed web applications.

Experience

2022 - Present: Software Engineer, Cobalt Retail Group

Built Python services for order processing, with SQL-backed inventory queries.

Wrote automated tests and documentation for the checkout API.

2020 - 2022: Junior Developer, Meridian Software

Maintained a Python/Django application and its SQL database layer.

Fixed bugs and shipped small features under senior engineer guidance.

Skills

Python, SQL, Django, Docker, Git, Linux

Education

B.S. Information Systems, Cedarville College, 2020
